

JUNE		3rd - 5th GRADE		WEEK 3	
READING	MATH	SCIENCE	RAINY DAY ACTIVITY	LIFE SKILLS	
 <p><b>Make a Book Worm</b> Every time you finish reading a book over the summer, put the name of the book on a segment of the worm.</p> <p>Every 4th or 5th book hides a promise of a prize.</p>	<p><b>3rd Grade:</b> Find 4 things in your house that weighs approximately 3 pounds.</p> <p><b>4th Grade</b> Roll 4 dice together and multiply to find the <b>product</b>. Record the product. Do this 25 times. Which product did you get most often?</p> <p><b>5th Grade</b> Read the book, <i>Lemonade for Sale</i> by Stuart Murphy. Make a bar graph, by days of the week, of the number of dogs you see each day.</p>	<p>Plant a vegetable garden either in your backyard or at your community garden. Take care of the garden all summer. What natural ways can you prevent animals from eating your plants? Do research on the Internet and at your library to find the answers.</p> <p><a href="#">Click on Logo</a></p> 	<p>Invite the neighbors kids to come over. Have the kids dress up in costumes, present an impromptu play or hand puppet show. Take pictures.</p>	<p><b>MONEY MANAGEMENT</b> Take your child grocery shopping. Give him/her \$2 before entering the store. This is for you to purchase fruit. Ask me questions if you do not know how to figure out how much fruit you can buy.</p> <p>If your child gets fruit that cost too much money, ask questions: Let's go back to the place where you got the fruit. How much does it cost for 1lb? Let's figure this out together.</p>
